

**Course Outline:** ISO 27001 Lead Auditor

**Learning Method:** Instructor-led Classroom Learning

**Duration:** 5.00 Day(s)/ 40 hrs

**Overview:**

Over five days, this intensive course prepares delegates for the qualification process for ISO 27001 and trains them on how to conduct audits for Certification Bodies. It also empowers them to give practical help and information to those who are working towards compliance and certification

**Who Should Attend:**

The course is intended for all those who wish to undertake and eventually lead audits of Information Security Management Systems (ISMS).

**At Course Completion:**

After completing this course, students should have learnt how to:

- To enable delegates to undertake external audits and lead audits of Information Security Management System
- To explain to the delegates the purpose and planning procedure of making systems secure
- To ensure delegates understand the importance of organizing and reporting their audit findings
